Message from the Founder

Dear Client,

With a rich heritage spanning over 30 years, Atlantis Pool Solutions has established itself as India's premier authority in aquatic infrastructure. Having mastered the art of water engineering across the diverse landscapes of India, we are proud to announce the extension of our world-class services to the United Arab Emirates (UAE).

From high-performance Olympic arenas to tranquil private lagoons, we combine decades of technical expertise with cutting-edge global trends to deliver unparalleled aquatic experiences.

Anvay Kolwankar

Growth Story

1988-2026

1990

Initial Starting Phase

Started by Mr. Girish Kolwankar in Dadar {Maharashtra} with a vision to become the leader in swimming pool construction in India.

1995

Launch : Nationwide Pool Construction

Expanded operations across India, becoming a trusted nationwide brand for custom pools

2022

Manufacturing : FRP Panels & Re-enforced Membrane (Phase 1)

Factory in Panvel

Global Reach: Commencing our first international projects in the UAE and Southeast Asia.

2026

Innovation : Research & Development Chemicals and Panels

Commitment to Sustainable Building: Utilizing recycled materials and water-saving technologies in every project.

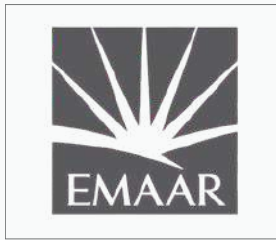

Ongoing

A Commitment to Innovation: Relentlessly improving our design and construction process based on client feedback and needs.

We don't just build pools,
We build lasting relationship

Our Services

Swimming Pool Construction

2D DRAWING

- Layout planning with accurate dimensions and levels
- Positioning of inlets, outlets, lights, and fittings
- Construction-ready technical drawings
- Compliance with engineering and safety standards

3D DRAWING

- Photorealistic pool visualization
- Depth, steps, and finish representation
- Better design clarity before execution
- Easy design revisions and approvals

TILING

- Surface preparation and alignment checks
- Installation of pool-grade tiles and finishes
- Precision jointing and grouting
- Aesthetic detailing with long-term durability

Water – proofing

- Structural waterproofing assessment
- Application of high-performance waterproofing systems
- Crack treatment and leakage prevention
- Enhanced durability and protection against water seepage

FILTRATION

- Filtration and circulation piping design
- Electrical routing for lights and equipment
- Drainage and balancing tank planning
- Efficient and safe system integration

CONSULTATION

- Pool type and structure recommendation
- Waterproofing and finishing guidance
- Equipment selection support
- Cost and performance optimization

MEMBRANE INSTALLATION

- Surface preparation and inspection
- Precision membrane welding and fitting
- Leak-proof waterproofing solution
- Long-lasting and low-maintenance finish

AMC

- Routine inspection and preventive maintenance
- Water quality testing and chemical balancing
- Equipment servicing and performance checks
- Breakdown support and operational guidance
